

TRANSPORTATION ENGINEER/MANAGER

The Greater Portland Council of Governments seeks a full-time Transportation Engineer/Manager to join our innovative team working to improve the Portland region's transportation network. As staff to the area's metropolitan planning organization, we pride ourselves in managing an excellent planning process with our eighteen very engaged municipalities, leading the region to apply the latest transportation planning practices and engineering/design standards, and programming over \$20 million annual portfolio of federally funded projects. As Maine's economic center, Greater Portland is an exciting region in which to work and live – and Portland is a world-class small city as shown in many “top ten” lists during the past ten years.

This position will address the complex technical aspects of the evolving multi-modal system, with an emphasis on: advanced traffic signal capabilities, performance analysis and design; pavement and infrastructure condition evaluation and maintenance; and transportation project management. The position's responsibilities include managing an active regional traffic management system (signals) program and conducting region-wide pavement condition assessments. The selected candidate will have regular communications with municipal officials, PACTS committees, and the MaineDOT. GPCOG is seeking a candidate with the following skills:

- Traffic signal management experience (PTOE desired, not required).
- Traffic engineering experience.
- Pavement condition assessment and management experience.
- Civil engineering and/or public works knowledge and experience.
- FHWA/MaineDOT local project administration training and experience.
- Bicycle and pedestrian infrastructure planning and/or design.
- Familiarity with or work in regional or city planning

The minimum qualifications for the position include:

- A degree in civil engineering or a related field.
- Registration as a Professional Engineer in Maine, or ability to obtain Maine PE within 6 months.
- Strong written and oral communication skills, including the ability to produce well-written reports.
- Experience with/for municipal or state government.

We offer a comprehensive benefits package, competitive salary, and a fun and creative working environment. Come join our team.

Interested candidates should submit a cover letter and resume along with minimum salary requirements by August 17, 2018 to: madams@gpcog.org (no phone calls please). Email subject line: Application for Engineer Position.
